

General tender texts for Grass-Stop-Plattes

Grass stop plates for round delineators

Supply grass stop plate

Supply and install grass stop plate

Grass stop plate for delineators with central cut-out

Material: Plastic recycling from polyethylene

Execution: round, diameter 500 mm, arched

Colour: Black

Quality requirement: dimensionally stable, with stiffening ribs, panel completely closed

Grass stop plates for delineators, square

Supply grass stop plate

Supply and install grass stop plate

Grass stop plate for delineators with a cut-out offset towards the road

Material: rubber recycling

Execution: square, dimensions 500x500x8 mm

Weight: about 3.2kg

Colour: Black

Quality requirement: dimensionally stable, flexible, panel completely closed

Grass stop plates for delineators, square, small version

Supply grass stop plate

Supply and install grass stop plate

Grass stop plate for delineators with a cut-out that is approx. 35 mm higher in the middle

Cutouts including recesses for reinforcement ribs of the base type 160

Material: plastic recycling

Execution: square, dimension 300x300 mm

Weight: about 0.5kg

Colour: Black

Quality requirement: dimensionally stable, with clamping effect, panel completely closed

Round grass stop plates for protective barrier constructions

Supply grass stop plate

Supply and install grass stop plate

Grass Stop Plate for guard rail construction with center cutout for post

(Selection: Sigma or C-100 or C-125 or HEA 100 or Sigma-100)

Material: Plastic recycling from polyethylene

Execution: round, diameter 500 mm, arched

Colour: Black

Quality requirements: dimensionally stable, with stiffening ribs, completely closed without connecting element for new tracks for retrofitting completely closed with connecting element for quick and easy clipping. Open again without much effort

Square grass stop plates for crash barrier constructions

Supply grass stop plate

Supply and install grass stop plate

Grass Stop Plate for guard rail construction with center cutout for post

(Selection: Sigma or C-100 or C-125 or Sigma-100 or C-125-100)

Material: rubber recycling

Execution: square, dimensions 500x500x8 mm

Weight: about 3.2kg

Colour: Black

Quality requirement: dimensionally stable, flexible, completely closed when new track is built, for retrofitting with gear lock for easy and quick open and close.

Round grass stop plates for tubular or sign posts

Supply grass stop plate

Supply and install grass stop plate

Grass stop plate for tubular and sign posts with a central cut-out

(Selection: diameter 42mm or 60mm or 76mm)

Material: Plastic recycling from polyethylene

Execution: round, diameter 500 mm, arched

Color: Black

Quality requirements: dimensionally stable, with stiffening ribs,
completely closed without connecting element for new tracks for retrofitting
completely closed with connecting element for quick and easy clipping. Open
again without much effort

Square grass stop plates for tubular or sign posts

Supply grass stop plate

Supply and install grass stop plate

Grass Stop Plate for guard rail construction with center cutout for post

(Selection: diameter 42mm or 60mm or 76mm)

Material: rubber recycling

Execution: square, dimensions 500x500x8 mm

Weight: about 3.2kg

Color: Black

Quality requirement: dimensionally stable, flexible, completely closed when new track is built,
for retrofitting with gear lock for easy and quick open and close.
